

## GROUP PATTERNING PICTURE

I call this picture "love's hall of fame." These dear people have done more for David than I can possibly say. My eyes fill with tears of gratitude when I think of the many faithful hours they have spent patterning Dave. Before we started patterning, he could not even move one inch on the floor. Now he is doing perfect cross pattern tummy, and hand and knee crawling. This therapy has also helped Dave in many other areas.
