

OUR WONDERFUL FAMILY PHYSICIAN, DR. ROGER BRACCHI WAS FIGHTING FOR DAVID FROM THE BEGINNING. MANY TIMES FAMILY DOCTORS ARE A GOOD SOURCE OF SUPPORT, BECAUSE THEY PERSONALLY KNOW THE FAMILY AND THE TRAUMA THEY ARE GOING THROUGH.

AS YOU CAN SEE BY THE DATES ON THE MEDICAL REPORTS, DR. BRACCHI WAS MUCH MORE POSITIVE THAN THE NEURO DOCTORS. HE WAS A GREAT SOURCE OF HOPE FOR OUR FAMILY WHEN NO OTHER DOCTOR SAW ANY HOPE.

WE WILL BE FOREVER GRATEFUL FOR HIS SUPPORT AND CARE OF DAVID.

10-18-90 MC RAE, DAVID
PROBLEM 2 SEVERE HEAD INJURY
: In for recheck. Bladder control coming along. Voids on command about every hours. Still has some incontinence. Speaking when supine. Mouths things when he sits up. Working out in the gym that has been built for him in the garage at home. St. E's PT visiting at home. Home Health not. Gaining weight. Wondering about flu and pneumonia vaccine.
: Smiles appropriately. Follows most requests. Chest clear. Heart reg. without murmur. Was incontinent of urine during exam.
: Incredible progress. I am basically thrilled.
: St. E's dietary consultation to prescribe appropriate diet for life situation. Influenza and pneumonia vaccine given today. RTC in 6 weeks and will probably get back to work at that time. Renewed Lioresal 10 mg tablets 1-1/2 tid. Continue other management the same. RB/sw

C.C. ✓ Paraplegia

Follow last visit - P.U. diarrhea, fever

11-27-90 MC RAE, DAVID

PROBLEM 2 SEVERE HEAD INJURY

S: Doing incredibly well. Bearing weight by himself, walking the length of parallel bars and back. Takes him about 5-7 minutes to do that. Turns on his own. Increasing the use of his right leg. Increased control over urine. Infrequently incontinent. Beginning to speak more, mostly in the supine position. Can speak audibly when his mom applies pressure to his abdomen.

O: Spoke a few words today. Greater strength in the right arm. Right leg with greater mobility and strength. Attempted UA but not able to void at this time.

A: Doing very well.

P: Continue current therapy. Thoracic corset per request of PT. Bring in UA. Recheck in 6 weeks. RB/sw
