

TO DAVID WITH LOVE
Forest Langley
U.S. Army Retired
Afflicted with TBI but gifted by God to write

Leone Nunley you know tis true
David with all his heart loves you
Your son knows and understands
More than others can comprehend

His is Gods special blessed project
His love for you and David defies logic
All the powerful emotions you share
Gifts from TBI with love in His care.

Day of the accident your heart did break
As you fell apart your nerves did shake
When you thought you couldn't take anymore
That's when love appeared from heavens shore.

What a Blessed Warrior Princess that you had to be
When your son took one look at you it set him free
Your hearts are bound together for all eternity.

We go through the heartbreaks so others we teach
And through traumatic experience others we reach
O praise God for David he has come so so so far
And more precious to the Lord than Sun, Moon, Star.
When it all just gets too much for you
Call on the Lord One who is True
He can lift the burden help to share
Teach you peace and love beyond compare.
